

## THE NSIGHT™ ENERGY INTENSITY PLATFORM

is the centerpiece of a holistic energy management approach for industry.

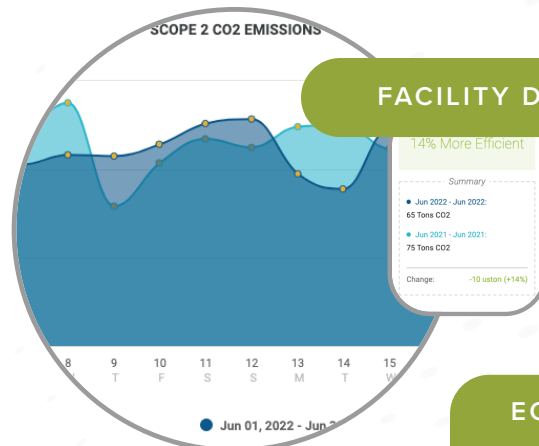

### PORTFOLIO PERFORMANCE

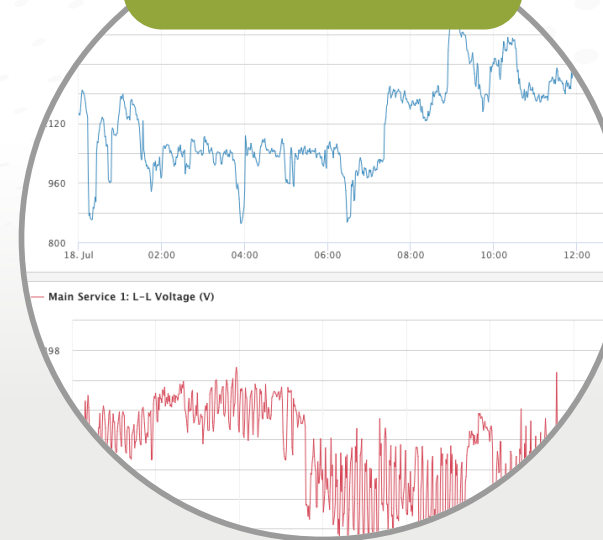

### REAL-TIME ENERGY INTELLIGENCE™

### FACILITY DETAIL

### EQUIPMENT-LEVEL DRILL-DOWN

#### OPERATIONS & FINANCE

- Receive real-time cost-saving suggestions tailored to you
- Fully automate cost-saving actions & track results

#### CORPORATE LEADERS

- See true energy and carbon performance across facilities
- Create a culture of energy intelligence across functions

#### SUSTAINABILITY LEADERS

- Simplify carbon data tracking, sharing and analysis
- Find & track verified CO2e reductions behind the meter

### WE HELP YOU FIND ENERGY.

Unlock new possibilities in industrial energy management with the production-first approach of the **NSIGHT™ ENERGY INTENSITY PLATFORM**

#### CREATE MEANINGFUL KPIs BY PUTTING DATA IN CONTEXT

- ▶ Track energy relative to production and other factors
- ▶ Use a common set of metrics to set goals & measure progress
- ▶ Easily roll up data across systems, geographies & currencies

#### PROACTIVELY MANAGE ENERGY USAGE AND COSTS

- ▶ Dynamically track energy spend vs. budget
- ▶ Receive real-time suggestions tailored to your operations
- ▶ Automate peak avoidance and demand response

#### INCREASE SUSTAINABLE OPERATIONS THROUGH VERIFIED REDUCTIONS OF CO2e

- ▶ Create trust with primary-source carbon data
- ▶ Replace spreadsheets with an automated data collection
- ▶ Analyze carbon intensity by facility, customer & product
